The committee will go out on the warpath Tuesday, and will not desist until it shall have raised not less than \$13,000. At least that is the plan, and those present last night developed no little enthusiasm in support of this whirly wind campaign. Active interest was manifested by the unsolicited tender of soveral subscriptions, and at least two who had given doubled their amounts. ### **DENIALS OF TO-DAY** NOT SO POSITIVE

Attitude of the President Much Less Fixed Than When He Declared That Under No Circumstances Would He Run Again-Position

of Bryan.

BY WALTER EDWARD HARRIS. WASHINGTON, D. C., April 11-The politicians of Washington, which politicians of Washington, which means practically the population, male and a goodly portion of the female, has been unanimous to-day in voting the proposition of Col. John Temple Graves at Chattanoga last night to have William J. Bryan nominate President Roosevelt as the candidate of the Democratic party next year the most interesting piece of news of the day, even the Thaw trial not excepted. It must be said that the proposition has not anything like general endorsement of Democrats, but there have been one or two encountered who say openly Roosevelt is

"good enough Democrat" for them.
The proposition of Mr. Graves,
while without practical value, probwhile without practical value, probably, so far as consummation is concerned, is illuminating as indicating the trend of sentiment. There is scarcely a doubt that Mr. Roosevelt will be the Republican candidate next year. A month ago there was grave doubt, because trust was pinced by many people in the reiterated declaration of Mr. Roosevelt that he would not accept another nomination. There is very little doubt to-day. "I won't have it," Mr. Roosevelt said repeatedly to callers up to within the past two weeks.
"I can't take it," has been the way he has declared himself when the third term proposition has been broached by callers within the time clapsing since the Harriman letter, and the Presidnt's declaration that a

Working Hard for It.

Working Hard for It.

The busiest politicians in the United States to-day are those who are advocating the renomination of Mr. Roosevelt. They are chiefly those of the Pacific slope and the Sage Brush States at present, but it is believed it is the purpose to try it on the dog, and if the third-term cry goes out in the Wild and Wooly, to have it taken up closer home. The action of the Legislature of Minnesota, demanding that the President serve another term, indicates that the movement to make him do so is approaching the East. That Mr. Roosevelt will be the Republican candidate next is hardly to be doubted. This fact has been most strikingly evident for a week and more, ever since Mr. Roosevelt so strikingly evident for a week more, over since Mr. Roosevelt skilfully diverted attention from skirmly divorted intention from the Harriman corruption charges by tak-ing the public into his confidence and telling them of the giant conspiracy to defeat the nomination of a candi-date, who was an advocate of his poli-

NEW YORK, April 11.-At 11 o'clock to-night the jury in the Thaw case had not reported an agreement, and it was said in the courtroom that no verdict jury came into court to ask for certain exhibits and the reading of pothe testimony and extracts of Justice Fitzgerald's charge.

One of these requests related to the testimony of Drs. Evans and Wagner Justice Fitzgeraid said these men were competent to give testimony as to Thaw's mental condition because of their per-

Foreman Smith started in to discuss certain other phases of his charge with Justice Fitzgerald, but was stopped short.

"I can't discuss the matter with you. Be careful about that, Mr. Foreman," exclaimed the judge.

Foreman Smith wrote a note and passed it up to Justice Fitzgerald, who then directed that that portion of his charge relatiff; to the hypothetical questions put to the experts for both the prosecution and the defense be read.

The charge stated that the jurors were not bound to accept nor allowed to accept opinions based on hypoto accept opinions based on hypothetical questions as they would accept facts. In hypothetical questions, the court declared, it is always of first importance that the facts contained in such questions have been established to the satisfaction of the jury. Opinions on such questions should be considered in connection with all the evi-

"I believe, now, that that is all, gentlemen," said Justice Fitzgerald.

"No, sir," interrupted Foreman Smith.

"There was one more request."

"That request," said Justice Fitzgerald, "is that certain portions of the summing up address by Mr. Delmas be read to you, I cannot grant it, It is not evidence, and you must remember that you can have nothing but the evidence given to you."

The jury then retired again and resumed deliberations.
